Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claims 42-44, 48 and 49 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by U.S. Patent No. 6,485,500 to Kokish et al. (hereinafter "Kokish").

Kokish teaches the claimed invention: See Figures 3, 4, 10-12, 14 and 15. See also, col. 10, line 54 through col. 11, line 41; col. 15, line 36 through col. 16, line 28; col. 17, line 46 through col. 19, line 50; col. 20, line 50 through col. 22, line 14.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 47 is rejected under 35 U.S.C. 103(a) as being unpatentable over Kokish in view of U.S. Patent No. 5,810,767 to Klein.

Art Unit: 3763

Kokish discloses the claimed invention as shown above, except for the flow rate of drug delivery. Klein suggests a flow rate from 1 ml/min to 40 ml/min (or 0.0167 cc/sec to 0.67 cc/sec). See col. 11, lines 55-60. It would have been obvious to one of ordinary skill in the art to modify the invention of Kokish to deliver fluid at a rate suggested by Klein in order to provide efficient drug delivery.

Response to Arguments

3. Applicant's arguments with respect to claims 42-44 and 47-49 have been considered but are moot in view of the new ground(s) of rejection.
